Survival in a complex change
environment

CHANGE: Childcare and Nurture Glasgow East

- CHANGE has been operational in Glasgow East since 2016
- Community engagement carried out with more than 200 families on the barriers to accessing childcare and family support in the local area.
- CHANGE Hub formed based on the outcome of the community engagement phase of the project carried out with families and services, multi –agency with 26 services ,37 members .
- Nominated for CYPIC Quality Award 2019.

Jigsaw Nursery – North Lanarkshire

We provide extended nursery provision for 2 to 5yr olds. Our space is extensive including five large playrooms, children's lunch/snack room, forest changing room, parent/community room, cycling room, staff room and access to a school gym hall. We have excellent outdoor spaces which we use daily to promote a forest kindergarden approach. We provide extended places to a number of working parents and provide a blended model of care in partnership with local childminders.

At Jigsaw Family Learning Centre we aim to provide a respectful, nurturing, learning environment where everyone is encouraged to be all they can be.
