

## CHANGE ANIMATION SCRIPT TRANSCRIPT

When I grow up, I'm gonna be a racing driver.  
A firefighter.  
A scientist.  
The East End of Glasgow can be a great place to grow up  
from tiny babies...  
...to teenagers.  
But much more needs to be done  
to make sure it's easier for everyone  
to get quality childcare  
and support for the whole family.  
I love playing with my friends.  
Whether it's nursery or Out of School Care  
it can be hard to find hours that suit  
and places you can get to easily.  
We have to drop off my wee sister at my gran's  
and then get two buses to get to the holiday club.  
And when something major happens  
I struggle to find someone to look after the kids.  
My group's great.  
I love hanging out with my pals and stuff.  
But you never know what's gonna be cut next.  
You worry there'll be nothing for the kids to do.  
Staff that work with my kids are amazing,  
they really care.  
They help me as well and go the extra mile.  
But you can tell they're worn out.  
The system's broken.  
We know what we need.  
Information that's easy to find and understand  
Affordable places  
More local childminders  
And childcare for emergencies  
Services that are here to stay.  
And more things to bring families together.  
You know, to play and learn.  
We need change now.  
It's our future.  
Yay!
